MONEY BACK CATARRH REMEDY

Dosing the stomach won't kill catarrh germs. Neither will sprays, douches, snuffs or ointments.

The quickest way to kill germs is to breathe deep into the lungs the vaporized air of Booth's HYOMEI.

As this antiseptic air passes over the sore spots infested with catarrh germs, it not only destroys them, but heals the inflamed membrane and stops the discharge of mucus.

Then hawking, spitting, snuffing, crusts in the nose and foul breath will disappear, and vile, disgusting catarrh will be conquered.

A complete HYOMEI outfit, which includes a hard rubber inhaler, only costs \$1.00. Extra bottles, if afterwards needed, 50c; and Red Cross Pharmacy is authorized to refund your money if dissatisfied.

IN BOSTON MARKETS.

Butter and Egg Prices Continue to Advance.—Receipts of Both Small.

Boston, Sept. 11.—The advance in butter and eggs goes on unchecked. Fears that the fall make of butter will be light seem to dominate the distributors, especially those who are not carrying much stock in cold storage, and their anxiety to secure supplies coupled with diminishing receipts, natural at this season of the year, keeps the market on the jump. Fancy northern creamery in tubs is now quoted in a jobbing way at 31@31½c, or ½c higher than it was late last week, but unless buyers assume a calmer attitude, still higher prices are likely.

There is no famine of butter, nor does one seem imminent in view of the fact that there is plenty of hay and other feeds this year and the number of milch cows in the country is not materially smaller than a year ago. Hot, dry weather has hurt pasturage in a good many of the important dairying sections of the West, but pastures often recover from heat damage and still have a chance, barring the advent of frosts.

Supplies of fresh eggs are proving woefully inadequate for needs and prices are constantly rising. Henney eggs, which a week ago were selling at 34@35c, now bring 38@39c and there has been almost as great a rise in the other grades, the demand for which has increased on account of the high cost of the best goods. The cheese market continues dull and as the primary markets are easier, dealers find it harder than ever to obtain the prices they ask.

Jobbing quotations:

Butter—Fancy northern creamery, tubs 31@31½c, boxes 32@32½c, prints and cartons 32½@33½c fancy western creamery, spruce tubs 30½@31½c, ash 30@31½c, good to choice creamery 28½@29½, renovated butter 20@27c.

Cheese—New York twins, fancy 17@17½c, fair to good 16@16½c, Young America 18@18½c, sage 18@18½c.

Eggs—Fancy henney 38@39c, choice eastern 33@34c, fresh western, extra 31@32c, first 26@27c.

MONTPELIER.

Middlesex Man Dragged by Train When He Grasped Wrong Handles.

George Cummings of Middlesex had a narrow escape from death yesterday morning, while being dragged by a Central Vermont train, leaving this station. Cummings grasped the adjoining guard rails of two cars, instead of the two rails of one car and when he swung himself up on the steps, as he supposed, he went between the cars instead and was dragged until the engine saw his plight and stopped the train. His back was dragging on the platform and his feet on the rails.

The three days' tuberculosis exhibit at the Biennial hall on Barre street is being well attended. The employees at the stone sheds being in the majority, as it was hoped they would be. Last night Dr. C. F. Dalton of Burlington gave an address in the city hall; to-night Dr. B. H. Stone of Burlington will speak, and to-morrow night Dr. Clark of the same city.

The entering class at Montpelier seminary numbers fifty. Luke Connors is for the present the coach of the football team and Harold Dwinell, manager.

New Kind of Steel.

New York, Sept. 11.—The day of the scientific safe burglar is about over. A kind of steel that cannot be drilled, exploded or cut has been discovered by German chemists, according to Prof. Carl Duisenberg, one of the foreign delegation to the international chemists' congress here and it is a question of only a short time before the yeggmen will have to turn to new fields.

Prohibition Beaten.

Little Rock, Ark., Sept. 11.—Returns received up to 2 o'clock this morning from yesterday's election indicate that the usual majorities were realized by the Democratic ticket here, led by Congressman Joseph Robinson as the gubernatorial nominee and that state wide prohibition was beaten.

INFORMATION ON LIFE SUBJECTS

Speaking of Cyclopedias and The Times is likely to continue to mention them every day until the New York publishers demand the withdrawal of the offer now being made, there is no person who cannot find much of vital importance in Everybody's Cyclopaedia.

All the latest information on live, recent subjects, is fully covered in these down-to-the-minute books. Here is the world's chronological history, covering many pages of colored charts from the earliest Babylonian times down to the recent discovery of the south pole. Not only is the new census given but also comparisons of the 1900 and 1890 population figures. The latest luxurious ocean liners are illustrated, also the last thing in wireless telegraphy, subways and tubes of the old and new world, modern power plants and many other recent inventions and discoveries. Many of the best people of this city have already secured the books and every trade and profession is represented among the number. Some of them came only to examine the set, but that is equivalent to possessing them, because every one who sees these beautiful volumes immediately recognizes the fact that the promotion expense amount required represents only a small portion of their actual value.

Only six coupons are required together with the promotion expense amount named therein. Lose no time in clipping the coupon printed on another page of to-day's paper and get the set as soon as possible.
